

Item Number: KIOC-08

Easily connect your iPhone or iPod to your Car Radio in seconds via the Auxiliary port connection.

A single cable harness provides power and audio transfer.

The harness is a great partner with ClicOn iPhone/iPod Thru- Connect holders. Simply connect the cable to the bottom of the holder, plug in the 2.5 audio jack into the auxiliary plug connection and press AUX on your radio set for clear and high quality sound.

Low profile plug-in charger that can be detached from the harness

Fashionable flexible cable with woven jacket

Cable Lengths:

- iPhone/iPod connector to cable junction 460mm
- 2.5 AUX plug to cable junction 460mm

USB charge connector to cable junction 460mm

iPhone/iPod connector to 2.5 AUX Plug 960mm

iPhone/iPod connector to USB connector 960mm

Please Note: The product is designed specifically for vehicles with an auxiliary plug connection located in the centre console or near the head unit on the dashboard.
