

Built for Demanding Environments

- The TC501 from Zebra Technologies is built for use in retail, logistics, service and delivery.
- Brodit mounting solutions support efficient, ergonomic workflows by keeping your TC501 securely mounted within easy view and reach.
- Brodit cradles create a safer, more efficient workspace while saving time and reducing operational costs.

Why It Matters

Perfect, Firm Fit

Customized for TC501 bare device, with Rugged Boot or Handstrap

Professional Performance

Engineered for industrial, rough and mobile business environments.

Full Accessibility

Full access to buttons, camera, ports and connected peripherals while docked.

Efficient Handling

Easy one-hand insertion and removal.

Durable Construction

Built to withstand frequent wear and tear in professional every day use. Constructed from high-grade ABS and Acetal plastic.

Quality Manufacturing

Designed and manufactured in Sweden.

Adaptable Cradles for Every Job, Every Workflow

- Brodit provides a full selection of Cradles for Zebra TC501 devices, offering ready-made options and flexible add-ons to fit any need.
- Charging options ensure a secure and reliable power connection, minimizing downtime and keeping the device ready for use at all times.
- Seamless data connectivity keeps your workflow fast and uninterrupted.
- Locking options provide extra stability and easy access, ensuring the device stays put without being taken.
- Cradles can be switched or upgraded easily.
- Easy adjustment for better access and viewing, and simple portrait-to-landscape rotation.
- Quick installation on any Brodit Mounting Platform.
